

# ACT vs NEW SAT

## What's What's the Same?

- Reading
- Writing and Language
- Math
- Science
- Cross-Test
- Essay

## What's Different?

- Math
- Science
- Cross-Test
- Essay

ACT Science is a multiple-choice test that assesses your ability to understand and analyze scientific information. It includes questions on biology, chemistry, and physics. The New SAT does not have a science section.

ACT Cross-Test is a multiple-choice test that assesses your ability to understand and analyze information from a variety of sources. The New SAT does not have a cross-test section.
